Date of Purchase:

Banner Care & Information

There are no returns or exchanges for banners.

Once purchased, if improperly cared for based on guidelines below - customer is responsible for printing re-printing costs. Our banners, *if cared for properly,* are created for outdoor use, and can be used for long periods of time without malfunction.

Bear Paw Printing LLC is not responsible for improper banner installation, nor improper care. Once the banner has left our facility it is your responsibility to follow proper installation, and maintenance guidelines above & below. Failure to do so is 100% customer responsibility.

How to Install Your Banner
It is easy to install a banner. Install against a flat surface only, such as a wall, and use all available grommets to keep the banner secure against the wall. Vinyl banners can act as sails if exposed to winds, to prevent his keep your banner securely affixed to a flat surface. DO NOT mount banners between poles, doing so is not only dangerous, but it will distort and stretch your banner. Eventually this will lead to banner failure.

Simply mark your banner holes with a pencil on the wall, drill your place anchors in the wall. Use fender washers and secure the banner to the anchors. USE CAUTION IF INSTALLING BANNERS ON LADDERS. We do not recommend this type of installation.

Proper Banner Storage and Conditions
1- Store your banner OUT of the sun. Direct sunlight for extreme periods of time can cause banner deterioration.
2- ROLL your banner PRINTED side out. DO NOT fold your banner in half printed side to printed side – this can cause ink cracking, scraping. DO NOT roll your banner printed side in- this can cause ink cracking, scraping.
3- Store your banner in a dry location. Excessive moisture from a basement or storage facility can cause deterioration.
4- DO NOT STORE YOUR BANNER IN YOUR EXTREME HOT OR COLD CAR. This can cause ink cracking, scraping.
5- DO NOT STACK MULTIPLE BANNERS PRINTED SIDE OUT ON TOP OF EACH OTHER.
6- STORE YOUR BANNER STANDING UP RATHER THAN LYING FLAT.
7- DO NOT USE RUBBER BANDS TO SEAL BANNER ROLLED. Use a piece of paper rolled around the banner, and then taped close.
